

Mark St. Leger Demonstration

Demo 1: "Rock-A-Bye" lidded box

-- All steps will be covered to create this unique box, turning the box on the bias, special turned jigs to complete the lid and an eccentric finial to top it off. Proper and safe tool techniques and setups will be shared throughout the presentation--

Demo 2: Convex Bias lidded box

-- The top and bottom of this bias box will be convex, tips will be presented for texture on three sides along with jigs to complete the lid for a gentle rocking box Proper and safe tool techniques and setups will be shared throughout the presentation--

Demo 3: Fun with Spheres

-- Two spheres will be turned of the 4 needed for this project (2 spheres will be pre-turned due to time restraints of the demo rotation time. I will use the 3 axis method for turning accurate spheres. A stand to display all 4 spheres together will also be turned. Just another twist on spheres!

Demo 4: Fun with Spin Tops

-- There's a kid in all of us!!! This demo will cover as many different style tops as time allows. Guaranteed to put a smile on your face no matter how old you are!!
